HISTORY

Hello. I have seen the memo but I was nopt sure what to do with it.

My report is short: because of the size of our department, it was decided about 15 years ago that everybody had to teach three full courses, except of course for those who are administrators or who are on leave. So those of us who are active on the Graduate Programme supervise MRP's, PhD theses and provide reading courses in addition to their teaching and research duties.

Is it sufficient? If not, tell me what more you need either by E-MAIL or by phone (88598). I'm in the office all day today.

Yves Frenette
