As per YUFA Faculty teaching load in MDS Department, the first thing to say is that, apart from a Contractually limited professor in the International Studies Programme, the other YUFA members in the Department are cross-appointed with another Department in the College: English, French, History.

In terms of teaching load, the MDS Department follows the general rule in the College: Each faculty member is assigned a 3 full course equivalent teaching load, including release time for administrative duties if any.

According to their contract, members appointed 1/3 of their contract to MDS Department teach one full course in the Department. If appointed 1/2, they teach 1.5 course, etc.
